GUESS WHO? WRONG PATIENT

nwHacks

March 18-19, 2017

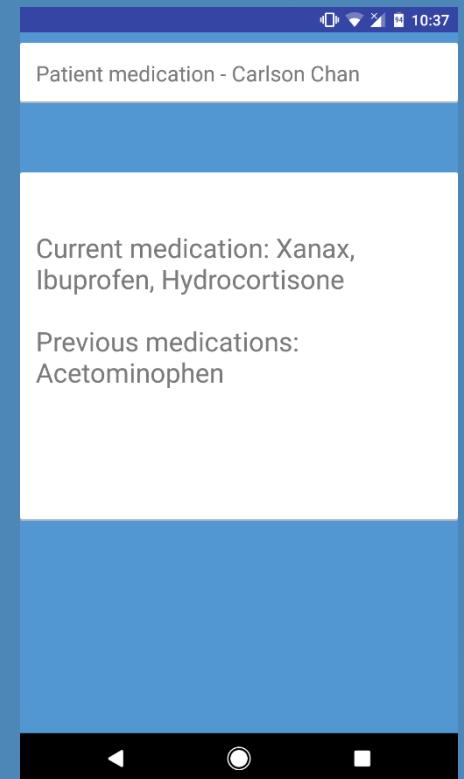

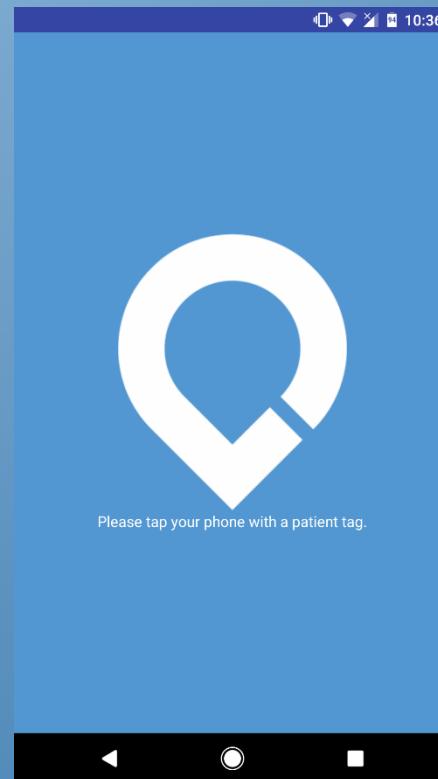

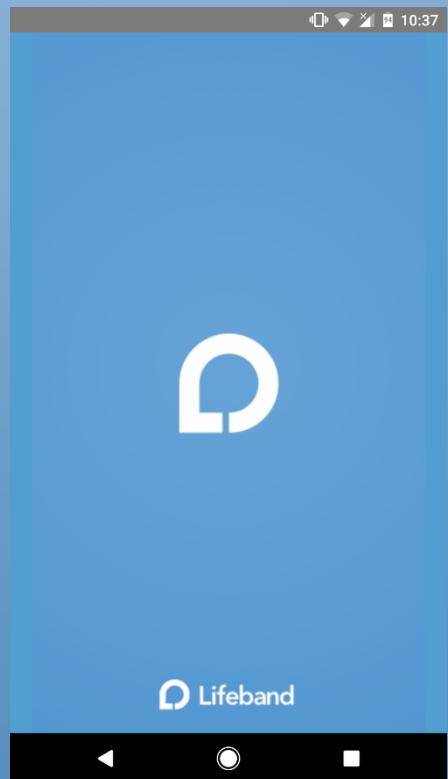

The Problem

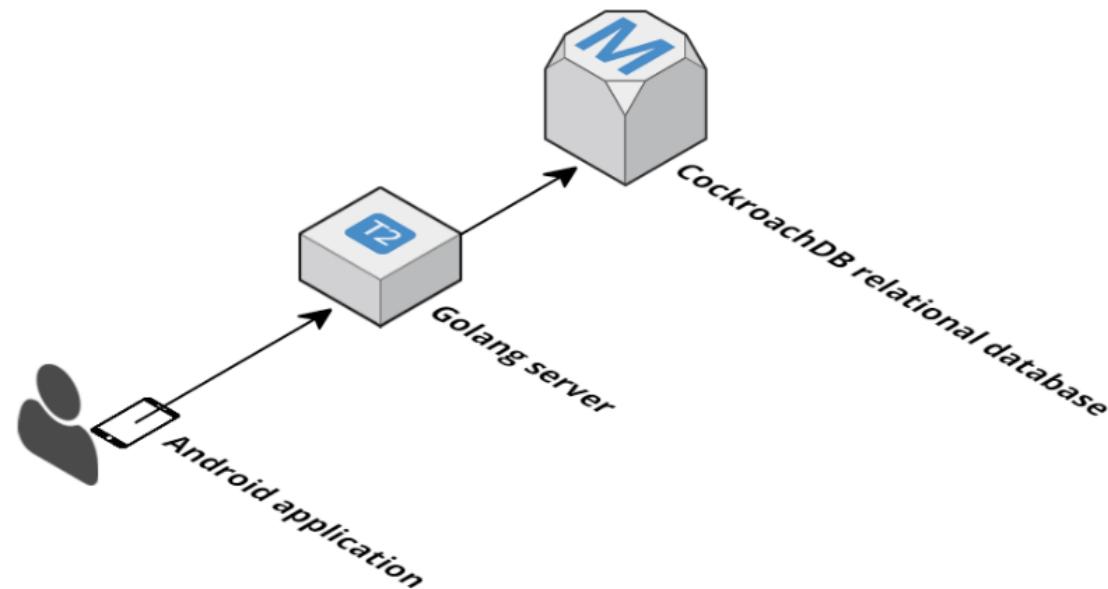

Source: The BMJ: Medical error—the third leading cause of death in the US
<http://www.bmj.com/content/353/bmj.i2139>

The Solution

The Infrastructure

The Team

- Kieran McCormick
- Jacky Chao
- Carlson Chan
- Jeffrey Leung
- Bradley Dalrymple

Sprinting (Almost) to the Finish Line

5 More Minutes

The Presentation

What We Learned

No sprinting after napping

Two pairs of **bloodshot** eyes

What We Learned

"Everybody has a testing environment.
Some people are lucky enough to have a totally separate
environment to run production in."

- *Papa Devops* (Twitter @stahnma)

Can't hack the thermostat
